

TTPC AGENDA REPORT

September 16, 2014

Agenda Item No. 9

ISSUE:

VOTE: Approve Committee Recommendations for CMAQ, STP and TAP Funding

BACKGROUND

On February 3, 2014, MARC issued a call for projects for the federal Congestion Mitigation Air Quality (CMAQ), Surface Transportation (STP) and Transportation Alternatives Program (TAP) funding programs estimated to total \$112 million through FFY 2018. MARC received 181 applications for projects by the March 21, 2014, application deadline.

Meetings of the Active Transportation Programming Committee, Air Quality Forum, Kansas and Missouri STP Priorities Committees and Regional Transit Coordinating Council have been held from June through September to develop funding recommendations for these programs. Information including project scores, planning committee priorities, compliance with the Regional Complete Streets and Congestion Management process policies, air quality impacts and relationship to the Planning Sustainable Places program and individual project sponsor priorities were considered by each committee in developing their recommendations. Final funding recommendations for these programs are detailed on the attached tables. Each committee unanimously endorsed their own funding recommendations.

POLICY CONSIDERATIONS

TTPC adopted a programming policy statement for this funding cycle on January 21, 2014 and approved the planning committee advisory priority-setting process on April 15, 2014. The proposed project funding recommendations comply with this programming policy.

BUDGET CONSIDERATIONS

MARC will collect a 0.5% project fee for federal funds awarded through this call for projects.

COMMITTEE ACTION

Advisory project priorities were developed by the Bicycle Pedestrian Advisory Committee, Destination Safe Coalition, Goods Movement Committee, Highway Committee and Regional Transit Coordinating Council.

Project funding recommendations were unanimously approved by the Active Transportation Programming Committee, Air Quality Forum, Kansas STP Committee, Missouri STP Committee and Regional Transit Coordinating Council.

2015 Kansas CMAQ Bicycle/Pedestrian & Traffic Flow funding were programmed in 2013 by the Active Transportation Programming Committee and the Kansas STP Priorities Committee.

RECOMMENDATION

Approve the project funding recommendations for:

- g) FFY 2015-2018 Kansas CMAQ Bicycle & Pedestrian projects as recommended by the Active Transportation Programming Committee (Table 1);
- h) FFY 2015-2018 Kansas TAP projects as recommended by the Active Transportation Programming Committee (Table 2);
- i) FFY 2015-2018 Missouri CMAQ Bicycle & Pedestrian projects as recommended by the Active Transportation Programming Committee (Table 3);
- j) FFY 2015-2018 Missouri TAP projects as recommended by the Active Transportation Programming Committee (Table 4);
- k) FFY 2015-2018 Kansas CMAQ projects as recommended by the Air Quality Forum (Table 5);
- l) FFY 2015-2018 Missouri CMAQ projects as recommended by the Air Quality Forum (Table 6);
- m) FFY 2015-2018 Kansas CMAQ Traffic Flow projects as recommended by the Kansas STP Committee (Table 7);
- n) FFY 2017-2018 Kansas STP projects as recommended by the Kansas STP Committee (Table 8);
- o) FFY 2015-2018 Missouri CMAQ Traffic Flow projects as recommended by the Missouri STP Committee (Table 9);
- p) FFY 2017-2018 Missouri STP projects as recommended by the Missouri STP Committee (Table 10);
- q) FFY 2015-2018 Kansas CMAQ Public Transportation projects as recommended by the Regional Transit Coordinating Council (Table 11); and
- r) FFY 2015-2018 Missouri CMAQ Public Transportation projects as recommended by the Regional Transit Coordinating Council (Table 12)

TTPC AGENDA REPORT

August 19, 2014

Agenda Item No. 10

ISSUE

REPORT: Planning Sustainable Places

BACKGROUND

The 2015 Planning Sustainable Places program serves as a single local government assistance program intended to specifically respond to these goals and facilitate the following objectives:

Program Objectives:

- Support the development and implementation of local activity center plans consistent with Creating Sustainable Places principles, identified regional activity centers, and the land use policy direction outlined in *Transportation Outlook 2040*.
- Support localized public engagement and community consensus building.
- Support the identification and conceptualization of land use strategies, transportation projects, and related sustainable development initiatives that help to realize and advance the objectives identified in the Creating Sustainable Places initiative, *Transportation Outlook 2040*, and the MARC Board’s adopted policy statement on regional land use direction.
- Support the conceptualization, development, and implementation of Creating Sustainable Places projects.

The 2014 call for projects closed on Wednesday, August 27, 2014. This report provides an initial summary of the applications that were received.

Funding Request Details (budget figures in thousands)

# of Projects		Total Budget	Federal Request	Local Match
27	Grand Total	\$ 3,390	\$ 2,327	\$ 1,063
	Project Category			
7	Sustainable Places Plan	\$ 665	\$ 459	\$ 206
20	Implementation Activities*	\$ 2,725	\$ 1,868	\$ 857

*Further breakdown of the Implementation Activities into Planning and Design requests is pending.

There are nine applications from Kansas municipalities and eighteen from Missouri municipalities. A map of the Applicant locations can be found at the end of this report.

POLICY CONSIDERATIONS

The Planning Sustainable Places Program represents a key implementation mechanism for numerous related adopted plans, including *Transportation Outlook 2040*.

BUDGET CONSIDERATIONS

None.

COMMITTEE ACTION

None.

RECOMMENDATION

None. Information Only
